**TITLE \_\_\_\_—EAGLES ACT OF 2022****SEC. \_\_\_\_01. SHORT TITLE.**

This title may be cited as the “EAGLES Act of 2022”.

**SEC. \_\_\_\_02. FINDINGS; SENSE OF CONGRESS.**

(a) FINDINGS.—Congress finds the following:

(1) On February 14, 2018, 17 individuals lost their lives in a senseless and violent attack on Marjory Stoneman Douglas High School in Parkland Florida, a school whose mascot is the eagle.

(2) These individuals lived lives of warmth, joy, determination, service, and love, and their loss is mourned by the Nation.

(3) The shooter in that attack exhibited patterns of behavior that were alarming and that should have alerted law enforcement and other Federal, State, and local officials.

(4) The attack on Marjory Stoneman Douglas High School was preventable.

(5) Lives were saved because of the brave and exemplary conduct of many students, teachers, and staff at Marjory Stoneman Douglas High School, including several of the victims of the attack.

(6) The National Threat Assessment Center (referred to in this title as the “Center”) was established in 1998 to conduct research on various types of targeted violence.

(7) Studies conducted by the Center on targeted school violence, in particular, have shown that—

(A) most incidents were planned in advance;

(B) the attackers’ behavior gave some indication that the individual was planning, or at least contemplating, an attack;

(C) most attackers had already exhibited a pattern of behavior that was of concern to other people in their lives; and

(D) prior to the attack, someone associated with the attacker, such as a family member or peer, knew the attack was to likely to occur.

(8) Through their research, the Center developed the threat assessment model for responding to indicators of targeted violence, which includes a 3-step process—

(A) identifying individuals who are exhibiting behaviors that indicate they are planning an attack on a school;

(B) assessing whether the individual poses a threat to the school, based on articulable facts; and

(C) managing the threat the individual may pose to the school.

(9) The threat assessment model works most effectively when all the relevant parties, including school officials, local law enforcement, and members of the community, are part of a comprehensive protocol to identify, assess, and manage a potential threat to the school.

(10) The primary goal of threat assessment programs in schools should be to prevent violent conduct, with an emphasis on early intervention, treatment, and care of individuals exhibiting behaviors associated with targeted violence.

(11) Early intervention, treatment, and prevention of violent behavior is an effective way to prevent violent conduct that would harm others and necessitate disciplinary action, including criminal penalties.

(12) The parties involved need the appropriate training and tools to establish the appropriate mechanisms for implementing this type of approach.

(b) SENSE OF CONGRESS.—It is the sense of Congress that a fact-based threat assessment approach, involving school officials, local law enforcement, and members of the community, is one of the most effective ways to prevent targeted violence in schools, and is a fitting memorial to those who lost their lives in the February 14, 2018, attack on Marjory Stoneman Douglas High School and those who heroically acted to preserve the lives of their friends, students, and colleagues.
